

UMEÅ UNIVERSITY

Call for Strategic research grants for young researchers funded by the Faculty of Medicine 2021 (for the years 2022-2024) B2 FORTE/FORMAS criteria

The Faculty of Medicine announces two (2) two-year research grants of 700 000 SEK/year. The call is open for all research areas within the Faculty of Medicine and aims to *strengthen young researchers' scientific merits and competitiveness* to attract external grants received in competition. The grant may be used for salaries (doctoral students, postdocs or other employees), infrastructures, for covering running costs or for you own salary.

The target group for the call is young researchers whose doctoral degrees are not older than 27th of May in 2014, with competitive research projects that are yet to be financed by regional grants (financial means) from the university/ALF/TUA or Region Västerbotten (RV) and that are *not* one of the faculty's top researchers concerning ongoing, large external grants (as defined in this call). *See further information in the section Eligible to apply.* Anyone wishing to invoke deductible time must state this in Appendix A.

General information

The long-term goal is to annually announce two (2) 2-year grants of 700 000 SEK/year. The distribution of the grants with respect to different research areas will be evaluated annually. Future evaluations will show whether the grants have resulted in an increased competitiveness in attracting external grants received in competition.

The application should be written in English (since the reviewers may be English speaking); must be signed by the applicant and the head of department. The head of department will certify that the application has undergone an internal peer review process at the department and will also describe the internal peer review process.

The applicant will select whether the application should be reviewed by Review panel 1, which will review the application using the criteria of the Swedish Research Council (VR) for scientific quality, or by Review panel 2, which will review the application using the criteria for scientific quality, and societal relevance as used by FORTE/FORMAS. Only one application per applicant can be submitted; consequently, the applicant has to choose whether the application should be reviewed by Review panel 1 or 2. *The applicant is fully responsible for sending the application to the correct review panel: **B1**, FS 2.1.6-534-21 (B1), eller **B2**, FS 2.1.6-535-21 (B2).*

Also, the applicant has to tag the application with the relevant SCB-codes, as to form a basis for the composition of the respective review panels.

UMEÅ UNIVERSITY

Eligible to apply

The applicant must be a young researcher with a doctoral degree who is at most seven (7) years old and must hold a position as an associate professor (*universitetslektor*), an assistant professor (*biträdande lektor/forskarassistent*) or a research fellow (*forskare*) during the grant period, (at least 1 year's employment), but does NOT need to have a permanent position. Even those who have previously held temporary employments as associate professors (*universitetslektor*), assistant professors (*biträdande lektor/forskarassistent*) or research fellows (*forskare*), but who are now appointed as TA-staff (e.g. senior research assistant/*1:e forskningsingenjör*) can apply for this grant. Professors are not qualified.

The call is open for those (see above) who *have not*;

- A) *Obtained* financial support of 500 000 SEK or more from the faculty/UmU and/or *granted* financial support from Region Västerbotten (RV) (including ALF/TUA) during 2020 (excluding travel grants, funding for infrastructure and basenhets-ALF)
or:
- B) *Granted* corresponding support (as A) during 2021, as of April 30th, 2021 (excluding travel grants, funding for infrastructure and basenhets-ALF)

Please note that A or B is sufficient to exclude eligibility. Example of support can be funding from the faculty/UmU or RV, this includes all co-funding and support for salaries, resources and/or indirect support, for example support for KAW Fellows/Projects/Scholars and WCMM fellows. Other examples of financial support are co-funding of doctoral students, start-up grants, funding linked to promotion or recruitment, basic science biotechnology grants (bioteknikmedel) and the following grants from RV: centrala ALF, TUA, spjutspetsmedel and funding granted for research when employed as professor. This does not include funding for infrastructure.

The applicant *must not obtain a total annual revenue* for research (including external funding as well as local grants according to A above) *equivalent to 1 MSEK or more* during the previous year, excluding travel grants or funding for infrastructure (refers to funds that have been advertised for this very purpose). Revenue is defined as the amount that has been both requisitioned and paid out to the applicant's account at the department/section. If the said funding/grants are shared, the applicant need only to account for the sum that has been requisitioned and paid out to him/her.

The head of department must certify that the application has undergone an internal peer review process at the department and will also describe the internal peer review process.

At *next year's call*, an attestation regarding ongoing research funding from a governmental funding body (VR, FORTE, FORMAS, VINNOVA), or regarding a filed application for such funding will be required to be eligible to apply for a strategic research grant for young researchers.

For questions on eligibility to apply, the administrator of the department may contact Anna Lundberg, anna.lundberg@umu.se.

Review panel and grant decisions

The applications will be evaluated by Review panel 1 or 2 respectively; the review panels will be appointed by the Faculty Board (FN) and the Strategic Board for Research (FON). The chairperson and the vice chairperson of each review panel will be recruited internally and should have experience from review panels at national research councils. The panel members will mainly be recruited among external researchers with experience from work in review panels in national and international research councils. The goal is to appoint panel members who have the required competence to assess applications from all research areas at the faculty. If the review panel finds that it needs to be supplemented by members in order to evaluate all applications, then the panel will be complemented accordingly. For each review panel, one member from the Strategic Board for Research (FON) and/or one member from the Faculty Board (FN) will be appointed as observers.

UMEÅ UNIVERSITY

Review panel 2 will evaluate the applications according to a combination of the assessment criteria as used by **Forte/Formas** and include:

- The scientific quality of the project (1-7)
- The research competence of the project leader and research group (1-7)
- Social relevance¹ (1-7)
- Feasibility (1-3)
- Societal benefit and plan for communication of research results (1-3)
- An overall assessment, reflecting the scientific quality and societal benefit of the application (1-7)

Scoring according to these criteria aims at facilitating the assessment of single components of the application. There will also be an overall assessment regarding the scientific quality of the application. Based on the assessment, all members of the review panel will rank the reviewed applications. The individual rankings of each reviewer will be combined to give a preliminary ranking for further discussion at the review panel meeting. When two or more applications are assessed as equal, based on their total score, the score for scientific quality and societal relevance will be ranked most important. The chair of the review panel will present the final ranking at a meeting with the Strategic Board for Research (FON), which will put forward a suggestion for the Faculty Board (FN); FN will make the final decision. One grant will be awarded in each group (B1 and B2).

¹ Relevance in relation to societal needs for an increased knowledge in: public and individual health; efforts to promote good health and prevent ill health; rehabilitation and nursing and healthcare processes and systems.

UMEA UNIVERSITY

The application must include the following attachments and be sent in as one cohesive PDF file

Attachment A CV

The CV should consist of no more than 2 A4 pages, Arial font 11, single spaced, 2.5 cm margins. **Specify the details in the CV according to the structure below.** (Details that are not relevant to the application should be left blank.)

- **Higher education qualification(s):** Year, subject area, university.
- **Doctoral degree:** Year, discipline/subject area, university, title of dissertation and name of supervisor.
- **Postdoctoral positions:** Year and location.
- **Qualification required for appointment as a docent:** Year.
- **Current position:** Term of appointment, dates for that employment and % time for research within that employment.
- **Previous positions and periods of appointment:** Describe the type of employment and specify dates of employment.
- **Interruption in research:** In this section you have the opportunity to list reasons for any longer interruptions that may have affected your opportunity to improve your career; for instance maternity/paternity leave, clinically active professions, positions of trust in trade union organisations, or other reasons. State the reason(s), the extent of time and dates for each interruption.
- **Supervision:** Name the doctoral students and postdocs that you have been principal supervisor for and specify the dates.
- **Other information of relevance to the application:** Please note that CVs and publication lists of participating researchers are *not* to be sent in with the application. The roles of the participating researchers are described in the research plan (please see below).

Attachment B Publications

Add your list of publications, according to the headlines and information below. Add only articles that have been published or accepted for publication. The list cannot be longer than five numbered A4 pages (corresponding to Arial, font 11, single spaced). Publications listed beyond these five pages will not be considered in the review process.

1. **Selection of publications:** List (at the most) the ten most important publications to the application. You should state, for each of the ten most important publications, your contributions to the publication and in which context the publication contributes to the intended project. (This must not exceed four lines per publication.)
Mark your name in the list of authors in bold. Include number of citations for the publication, and the Impact Factor for the journal during the year of the intended publication.
2. **Total number of publications of the last 8 years:** Sort the publications, with your name highlighted in bold in the authors list, under each heading (category of publication) in the following order. *Include number of citations for the publication and the Impact Factor for the journal during the year of the intended publication for those publications of most importance for the application.*
 - **Peer-reviewed original articles**

UMEÅ UNIVERSITY

- **Peer-reviewed conference contributions** the results of which are not included in other publications.
- **Peer-reviewed edited volumes**
- **Research review articles**
- **Peer-reviewed books and book chapters**
- **Other publications including popular science books/presentations**

Note! Please sort the publications under each heading in reverse chronological order so that the latest publication is at the top of the list. Please include only articles or corresponding that have been published or accepted for publication at the time of applying. The order of authors in the publication list must be identical to that of the published work. Also note that the publication list cannot exceed five pages.

Attachment C Received revenue (erhållna intäkter)

Please note that this section is described and is to be reported in Swedish.

The department's economy administrator may assist you in assembling the requested information.

Erhållna intäkter år 2020 (för lokalt stöd från fakulteten/UmU/Region Västerbotten inkl. ALF/TUA även beviljade medel år 2021 per den 30 april 2021) redovisas enligt anvisningar i Bilaga C:

1. Utbetalda lokala stöd från fakulteten eller UmU till den sökande. Kommentera särskilt vad som är resemedel/medel för infrastrukturer
2. Beviljade medel från Region Västerbotten år 2020 avseende centrala ALF-medel, TUA-medel, spjutspetsmedel och medel för forskning vid anställning som professor. Kommentera särskilt vad som är resemedel/medel för infrastrukturer
3. Samtliga bidragsintäkter (bukod 320) samt försäljningsintäkter (bukod 340) på vh 22 exklusive finansiär Region Västerbotten. Kommentera särskilt vad som är resemedel/medel för infrastrukturer
4. Medfinansiering av UGEM och FGEM på vh 21 och vh 22
5. Medfinansiering av UGEM och FGEM på vh 23 avseende finansiär Region Västerbotten

För frågor som rör bilaga C kan berörd institutions ekonomiadministratör kontakta controller Carina Wallmark, carina.wallmark@umu.se.

Anvisningar Bilaga C Erhållna intäkter

1) I förekommande fall utskrift ur *Raindance/Beslutsstöd/Uppföljning/Frågor & Analys/Utfall* över utbetalda **lokala stöd** från fakulteten eller Umu till den sökande **år 2020** samt eventuella beviljade lokala stöd **år 2021 per den 30 april 2021** exempelvis finansiering eller medfinansiering av anställningar, stöd till KAW Fellows/Projects/Scholars och WCMM fellows. Andra exempel på stöd är samfinansierade doktorandanställningar, startbidrag/resurs i samband med befordran, rekryteringspaket, flyktfara, bioteknikmedel. Rapport *V20P Projekt inklusive passiva* anpassas och tas ut för aktuell period och den sökande enligt bild nedan och exporteras till Excel.

UMEÅ UNIVERSITY

Attachment D Budget and financial resources

- List briefly personnel costs, other costs and any other funding of the project for Year 1 – Year 2.
- Justify briefly each cost in the budget stated. The description may cover a maximum of 4 000 characters including blank spaces.
- Other funding. Please state any funding for the project (whole or part) received by you or another researcher, in excess of the amount in this application. Please state rounded amounts in SEK.

Attachment E Abstract

The description may cover a maximum of 1 500 characters, including blank spaces, single spaced.

- The abstract must provide a summary guide to the purpose and implementation of the research and be written in such a way that persons with a different scientific background can understand the information.

Attachment F Popular science description

The description may cover a maximum of 4 500 characters, including blank spaces, single spaced.

- Describe the project in such a way that a person who is not familiar with the subject can understand it. Describe what is to be done and why, and explain why the new knowledge may be important.

Attachment G Research plan for applications to Review panel 2 – to be reviewed according to criteria of the Swedish Research Council for Health, Working Life and Welfare (FORTE)/FORMAS

The Research plan (Project description and Relevance) in its entirety must encompass no more than 10 pages, (font Arial 11, or larger, single spaced, 2.5 cm margins) and structured according to that of a research plan in a FORTE/FORMAS application, i.e;

Project description

- **Project title**
- **SCB code:** State three SCB codes that describe the research in the application.
<https://www.scb.se/contentassets/10054f2ef27c437884e8cde0d38b9cc4/standard-for-svensk-indelning--av-forskningsamnen-2011-uppdaterad-aug-2016.pdf>
- **Purpose, research questions, theories, background and the originality of the project:** Describe the project's purpose, specific research questions, background and originality. Write a brief literature review and analysis of the theoretical starting points and describe the project's added value in relation to previous research in the area. If the project is based on a previously completed or still ongoing project, describe how the projects relate to each other and summarise the results of the previous research.
- **Study design, methods for data collection and analysis:** Describe the study design, which data will be used, how the data collection will be undertaken and the principles and methods for data processing and analysis. When applicable, include a brief description of current and possible novel need for basic equipment necessary for the completion of the project.

UMEÅ UNIVERSITY

- **Interdisciplinary and/or multidisciplinary approach:** Describe the disciplines involved in the project and the way in which the project is inter- or multidisciplinary.
- **Gender and diversity perspective in the content of the research:** Describe in what way theoretically based gender and diversity perspective is important for the research project. This applies in addition to a description of the variables included in the research project, such as gender, ethnicity and disability. Disability, ethnicity, socioeconomic status, age and sexual orientation are aspects that are included in the diversity concept.
- **Work plan:** Clearly describe what is going to be done and how the work will be organised. The work plan should also contain information about the staffing of the project, including details of the persons' project tasks. Cooperation with other researchers outside of the project group is described here. The work plan should be written so that the reviewers can appraise the feasibility of the project.
- **Ethics:** Comment on the project's ethical considerations. Comment if the project lacks ethical problems, needs ethical considerations, will be submitted to the Swedish Ethical Review Authority (Etikprövningsmyndigheten) or has already received ethical approval. Comment on why the project needs or does not need ethical review. If no ethical issues are raised, please justify this.
- **Independent line of research:** Describe your independence as a researcher. If you work or will work in a larger group, you must clarify how your project relates to the other projects within the group. If you are continuing on a project that has been started in whole or in part during your doctoral or postdoctoral period, you also need to describe the relationship between your project and your previous supervisor's research.

Relevance

- **Relevance in relation to societal needs:** Comment on the relevance of the project in relation to the societal needs of increased knowledge in: public and individual health; efforts to promote good health and prevent ill health; rehabilitation and nursing and healthcare processes and systems. Explain how the research questions relate to societal needs.
- **Collaboration and user participation in the research process:** Comment on the project's planned collaboration with representatives for relevant organisations, authorities, users or other actors. This concerns cooperation with actors primarily outside the scientific community. Describe which actors you will engage, in which phases of the research process and in what forms. Justify the relevance of the collaboration and describe expected effects.
- **Utilisation and communication of research results:** Outline the plans for utilisation of the project's research results. Discuss possible target groups and describe the actors that are to be contacted and involved, methods that are to be used and the expected outcomes. This may relate to policy, practice and working methods etc.

Attachment H Certificate from the head of department

A certificate from your head of department stating that the application has undergone an internal peer review process at the department and describing the internal peer review process.

UMEÅ UNIVERSITY

The application must be sent electronically as one single PDF file to medel@diarie.umu.se **no later than 27th of May, 2021**. Name your file: *Fakultetsfinansierad strategisk forskningsresurs för unga forskare B2_Your Name*. Write the registration number FS 2.1.6-535-21 (B2) in the subject line of the email.

This document has been translated into English. In case of divergence of meaning between the English and Swedish wording of this document, the Swedish wording shall prevail.
