EU – Other funding opportunities

Article 185 – Collaborative programmes

Article 185 is a cooperation programme between EU and its member countries that for example includes AAL Ambient Assisted Living and BONUS. These programmes aims at supporting research programmes undertaken jointly by several member states. The programmes are implemented by authorities in each participating country, which also provides part of the funding, together with the EU. - Eurostars- supports the development of rapidly marketable innovative products, processes and services that help improve the daily lives of people around the world. Eurostars has been carefully developed to meet the specific needs of SMEs. It is an ideal first step in international cooperation, enabling small businesses to combine and share expertise and benefit from working beyond national borders. Eurostars is a joint programme between EUREKA and the European Commission, co-funded from the national budgets.
